

SERVICE SINCE 2013

Collaboration & Communication
Solutions **for the Modern Workplace**

AV & DIGITAL SIGNAGE SERVICES

The Technology Your Business Needs to Excel

As workforces grow into hybrid models and technology evolves, communication tools like video conferencing are more essential than ever. DCS Global has the knowledge, experience, and partnerships to deliver exactly what your business needs to keep pace and collaborate successfully. Whether it's software like Zoom or hardware like customer service kiosks, our team makes sure your solution meets your goals.

Why DCS Global?

- ✓ All installations are guaranteed.
- ✓ We run total cost of ownership models to ensure full transparency.
- ✓ We'll work closely with you to help you determine when you'll start seeing returns on your investment.

Partnered With the Best

OPTIMIZE YOUR INFRASTRUCTURE

Cutting-Edge Solutions & Support

Audio/Visual

Our advanced AV over IP technology allows you to share crystal-clear audio and video from almost any device, giving your team greater flexibility over a range of applications.

Video Conferencing

Collaborate easily regardless of location with video conferencing and screen sharing tools installed and managed by our team. Our products and services can be tailored to the precise needs of your modern business.

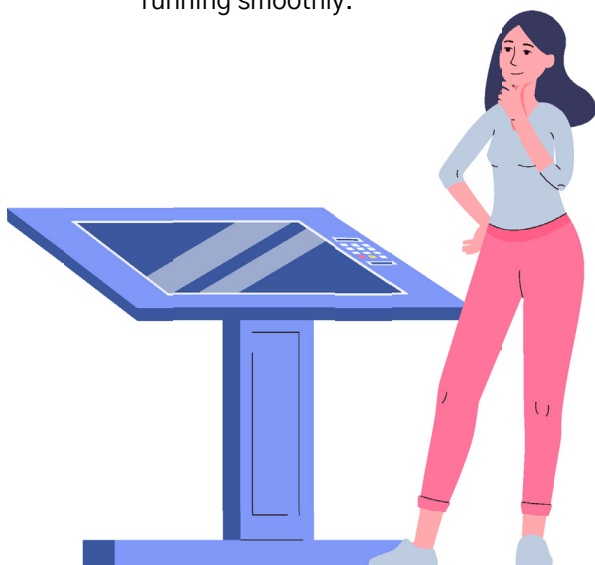

Digital Signage

HD displays, interactive kiosks, video walls, and mobile apps deliver an immersive experience for employees or customers, enhancing your marketing and communication strategies.

Helpdesk Support

Every solution is backed by our highly skilled technicians throughout its lifecycle, from daily troubleshooting to equipment upgrades. With 24/7 availability and responsive service, our support staff keeps your solution running smoothly.

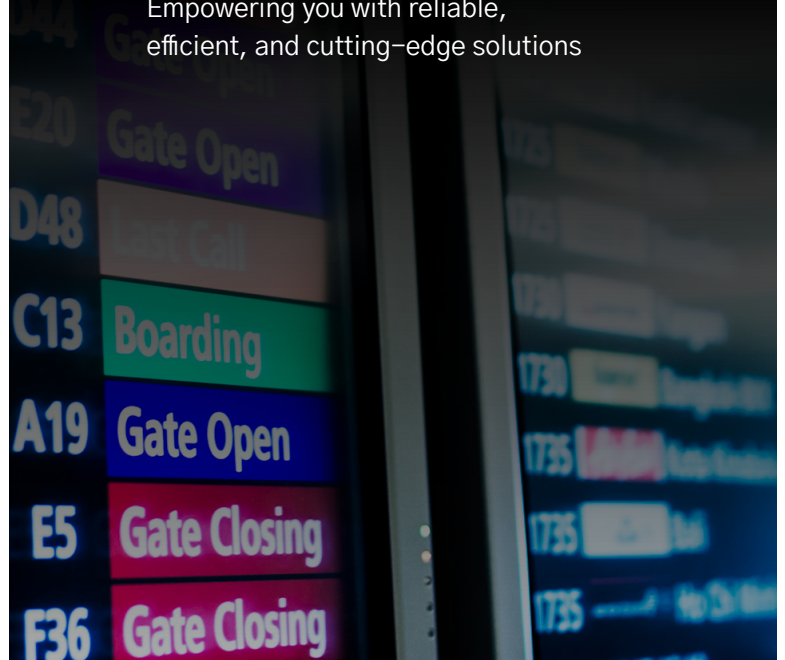

Innovation on Your Schedule

We recognize that nothing in business is achieved without collaboration and teamwork. That's why, no matter how large your team's size or geographic footprint is, DCS Global is committed to meeting its every need. With our far-reaching experience, **we can support your communication technology even if you operate in a highly specialized field like government, finance, or healthcare.**
