

Full Sunlight Readable

Features

The Agile Outdoor Display includes a robust Windows PC designed to run Content Management software or other Windows applications that will get your message to the viewing public. This unique digital signage system is a fully water and dust-proof display that is engineered to withstand all weather conditions. With 3000 NITS brightness the Agile can be placed in direct sunlight and viewing will not be impacted. The IP66 rated enclosure provides maximum protection against the elements.
