

The DCS Estrella is a streamlined kiosk that provides static or interactive digital content. Its portrait-oriented platform is powered by a Windows PC or media player. Fabricated with either a single or dual-sided display, the Estrella delivers a captivating 24/7 experience in any unattended public environment.

The Estrella is offered with or without a touch screen feature and presents unrivaled clarity while informing or selling your message to the public. If selected, the DCS PCAP touchscreen provides easy interaction and incredible responsiveness with any self-service application. Available in a variety of colors or with custom branding, the attractive steel stand supports a 32", 43", 55", or 65" screen with no exposed cables, wires, or ports.
